## 認証ホストドメインのブロック

OpenID認証ホストのドメインレベルでのブロックは、技術的には実装が容易です。あるリソースがSteamへのログインリダイレクトから除外されれば、その同じリソースの認証プロキシとして機能するサードパーティのドメインも、同じルールセットによってフィルタリングできます。実装の実現可能性に関する詳細な考察は、メインの報告書に記載されています。

I’ve used Steam for years, but lately, their sales have really lost their edge. I was hoping to score some solid discounts, but many games still feel overpriced, even during sales. Plus, the support response times can be frustratingly slow when issues arise.

horrible company.randomly you get "This account may have been accessed by someone else."this happened to me 3 times.the 3rd time they wanted a cd key.a spent useless cd key that nobody has any reason to keep laying around.i gave them the paypal bill for my first purchase back in 2015.i gave them a bill for my first phone number ever on the account.i still got the same email attached to the account.this company is literally a scam. nothing but a scam.they randomly claim you been accessed somewhere else and then require you to give them information no reasonable person would ever have, if not your done and have to rebuy everything.

Steam community is plain bad for a various reasons:1. Steam forums are a big mess, for example they allow users to post in any language and as result you get jumbled mess with posts in foreign languages together with English language posts. For example, If you check CS GO forums, you'll see half of posts are in Russian and half in English. I don't understand why such a big and international company would leave their forums so unorganized like that. All other normal companies have English only language allowed which is an international language and sometimes subforums for other languages like German, French and etc... so if French people want to post in French they go specifically in that sub-forum. But no, Steam doesn't care about this. Their forums is a one big mess.2. Moderation is biased and joke. I don't understand why such a big company like Steam can't afford to hire people for moderation and pay them. Instead they just recruit random people for moderation who do it for free and

What can I say? the support is one of the worst I've ever seen maybe the FUNCOM is much worse. If you tell the true on the steam forum you just got a BAN even if what you said did not violated the rules of the forum.

In bloddy hate their page it's tiresome, it's in no way intuitive. I tried reaching out for support, but that is a maze.I'm simply trying to log in and redeem a key of a product I already bought, their search function is a joke. I f*u*c*k*i*n*g hate them. The layout is not like the how to video from the dealer, this can be done much simpler. I don't frigin care aboutn what other titles you have in store or what genre, I just want to redeem my key and install.

Support on site is terrible.Refunds not happend yet, despite games not working.No help at all if key is bought outside their system, so as a customer you can bounce back and through between bad support systems?? I wait for some other companies to compete in this market, for this can't be the best we as customers can expect.And do put an email up to find, instead of this stuppid website where you spend so long time trying to find a solution on, instead of a simple mail. Often the problem is not there, or if it's there just saying no help here???I need a response
