# Developer & repository explorer

Interactive developer and repository explorer: search nodes and inspect recorded relationships across the Steam ecosystem.

| | |
|---|---|
| **Prepared** | 18 October 2026 |
| **Attribution** | PhishDestroy Team |
| **Live article** | phishdestroy.io/steam_dossier/output_steam_network/network.html |
| **Reading files** | PDFs, article JSON and verification |

A dated reading edition of the published article. Original evidence, reported claims and editorial interpretation retain the distinctions and limits stated in the text.

READING MAP / 01 SECTIONS

# Follow the record.

Article overview 3

Select a node 3

Edition, sources & verification 4

The entries are clickable. The PDF bookmarks provide another route through the document. External source links open the referenced publication or retained file.

# Developer & repository explorer

Search a node. Inspect the recorded relationship.

▼ **Collection scope and original graph totals**
Total Devs 3,320
Total Repos 252
DISPLAYED GRAPH / COLLECTION SUBSET 468 NODES • 1103 EDGES
💡 Click on any node on the graph or type in Search to inspect its collected connections and source paths.

> Explore the retained repository and profile network online.

## Select a node

Open a profile or repository to read its recorded relationships and source paths.

── Contribution┈┈ ForkDependency / Profile association: not encoded in this graph export.

This view contains 468 nodes and 1,103 exported relationship rows. One row connects the recorded source node to a target node with its retained relationship label. The complete collection totals above use a different population. Original graph export · Data used in this view

EDITION NOTES / TRACEABLE FILES

# Read the claim. Check its source.

This reading edition was prepared on 18 October 2026 from the current English article. It retains the authored discussion and analytical tables in the source HTML. Navigation and interactive controls are removed. Interactive datasets remain linked rather than expanded into thousands of printed rows.

Selected source images remain linked to their publications or retained copies. The PDF does not independently authenticate the participants in a screenshot, verify every report in a collection, or determine the merits of a legal allegation.

## Visual material linked separately

- interactive collection: Explore the retained repository and profile network online.

## Check this edition

The detached OpenPGP signature covers the exact bytes of the article JSON. That JSON includes the exported text, source identity and SHA-256 of this PDF. It is not a PDF document signature, and it does not certify the truth of underlying third-party material.
